Summary

I ended my educational adventure by leaving my graduate program at Yıldız Technical University at the thesis stage and started my professional business life in the private sector. For a while, I gained experience in the private sector in the field of urban design and planning and continued in the public sector. During this period, after getting my SPK Real Estate Appraisal License, I established MFY Real Estate Appraisal company. I have been serving in the field of real estate appraisal for about 5 years.

Now I am starting the bootcamp, which will bring a new breath to my business life in order to catch up with the era. By completing the course, I aim to step into a brand new business life as a data scientist.

Eğitim serüvenini Yıldız Teknik Üniversitesinde lisansüstü programımı tez aşamasında bırakarak sonlandırdım ve profesyonel iş hayatına özel sektörde başladım. Bir süre kentsel tasarım ve planlama alanında özel sektörde tecrübe edinerek kamu alanında devam ettim. Bu süre zarfı içerisinde de Spk Gayrimenkul Değerleme Lisansımı aldıktan sonra MFY Gayrimenkul Değerleme şirketini kurdum. Yaklaşık 5 yıldır gayrimenkul değerleme alanında hizmet vermekteyim.

Şimdi çağı yakalamak adına iş hayatıma yeni bir soluk getirecek bootcamp e başlıyorum. Kursu tamamlayarak data scientist olarak yepyeni bir iş hayatına adım atmayı hedefliyorum.

Experience
